

PRINCE GEORGE'S COUNTY PUBLIC SCHOOLS

Location: Various Schools in Prince George's County, Maryland

- Thomas G. Pullen MS Window Replacement | Landover, MD - The scope of this project will be to remove and replace the existing windows throughout the entire 1967 building. The work consists of furnishing commercialgrade aluminum single-hung windows and all materials, labor, equipment, permits, and supervision to remove and demolish existing windows and replace with new.

- Thurgood Marshal MS Window Replacement | Temple Hills, MD - The scope of this project will include the removal and replacement of existing windows throughout the entire 1962 building. The scope for all disturbed openings will include interior spackling and painting and exterior tuck-pointing and brick replacement. All exposed wood shall be covered (color to match) with metal cladding. Many of the original metal window frames are badly rusted and leaking. The total number of windows is 745 in the classrooms, gym, hall ways, nurse's suite, cafeteria, kitchen, media center, guidance office, and the

Principal's and Vice Principal's offices.

- Tayac ES Systemic Exterior Doors and Windows Replacement | Fort Washington, MD - The scope of this project will be to remove and replace the existing windows and doors through the entire 1955 building and the 1956, 1962, and 1972 facility additions. This project will not include the part of facility that was added to the complex in 2000 (sections A, B, C, D, E, and F).

- Bond Mill ES Window Replacement | Laurel, MD - There are 52 double tier windows that primarily are classroom windows which are actually divided into 2 parts (a top half and a bottom half). There are 28 double tier courtyard windows that are similar to the classroom windows (top half and bottom half). There are also 8 large single pane glass panels in the courtyard that will be replaced.
